Review

$$\hat{y} = \hat{\beta_0} + X\hat{\beta_1}$$

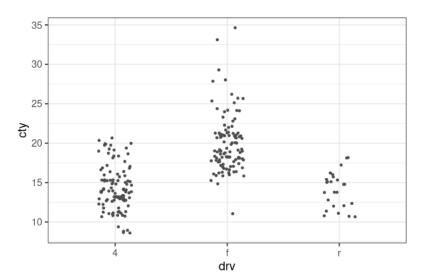

- Describe how correlation and regression related
- Why regression?
- ▶ Be able to predict an outcome, given a predictor
- Interpret the slope and intercept (if applicable)
- Assess the quality of a fitted line

Consider how data is stored in our data frames in R

Model	Transmission
audi a4	auto
audi a4	manual
chevrolet c1500 suburban 2wd	auto
dodge dakota pickup 4wd	auto
ford explorer 4wd	manual
hyundai sonata	auto

How might these be used in regression?

$$\mathbb{1}_{\mathsf{Manual}} = egin{cases} 1 & \mathsf{if} \ \mathsf{Manual} \ 0 & \mathsf{if} \ \mathsf{Automatic} \end{cases}$$

$$\mathbb{1}_{\mathsf{Automatic}} = \begin{cases} 1 & \text{if Automatic} \\ 0 & \text{if Manual} \end{cases}$$

$$\widehat{\mathsf{City\ mpg}} = 16.370 \times \mathbb{1}_{\mathsf{Automatic}} + 18.457 \times \mathbb{1}_{\mathsf{Manual}}$$

By default, the first indicator will be absorbed into an intercept, making it the reference variable

Compare

$$\begin{split} \widehat{\text{City mpg}} &= 16.37 \times \mathbb{1}_{\text{Automatic}} + 18.457 \times \mathbb{1}_{\text{Manual}} \\ \widehat{\text{City mpg}} &= 16.37 + 2.09 \times \mathbb{1}_{\text{Manual}} \end{split}$$

Practice

- ▶ What is the reference variable
- Equation for line?
- ► Interpretation of intercept? Slope?
- ▶ What is the average city mileage for:
 - 4-wheel drive?
 - Front-wheel drive?
 - Rear-wheel drive?

Extending to Multiple Variables

Here we have the average city miles per gallon for each combination of drive train and transmission

Transmission	4wd	fwd	rwd
Automatic	13.85	19.11	13.29
Manual	15.61	21.34	15.75

Extending to Multiple Variables

- What is the reference variable
- Equation for line?
- Interpretation of intercept? Slope?
- What is the average city mileage for:
 - Automatic 4-wheel drive?
 - Manual Front-wheel drive?

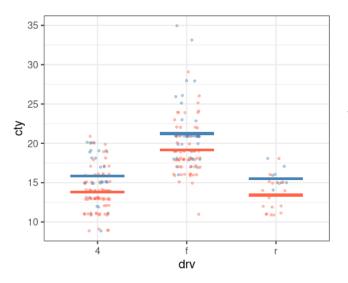

Observed vs Predicted Means

Observed:

Transmission	4wd	fwd	rwd
Automatic	13.85	19.11	13.29
Manual	15.61	21.34	15.75

Predicted:

Transmission	4wd	fwd	rwd
Automatic	13.69	19.17	13.42
Manual	15.83	21.24	15.49
